

Once upon a time, there were two wizards who  
lived in a magical kingdom. With their wands, they  
could weave wondrous spells and wield wild weather.

What would they do with their wizardry? They de-  
cided to work together and create a world of won-  
ders! They waved their wands and willed the world  
to be filled with wonderful things. Who knew what

wild wonders would appear? The wizards watched

with wide eyes as the world around them changed.

They worked with each other to make sure every-

thing was just right, and soon enough, the world

was full of wonderful things!
