

Once upon a time, there were two wizards who lived
in a magical kingdom. With their wands, they could
weave wondrous spells and wield wild weather. What
would they do with their wizardry? They decided to
work together and create a world of wonders! They
waved their wands and willed the world to be filled
with wonderful things. Who knew what wild wonders
would appear? The wizards watched with wide eyes

as the world around them changed. They worked with

each other to make sure everything was just right, and

soon enough, the world was full of wonderful things!
